 Textured

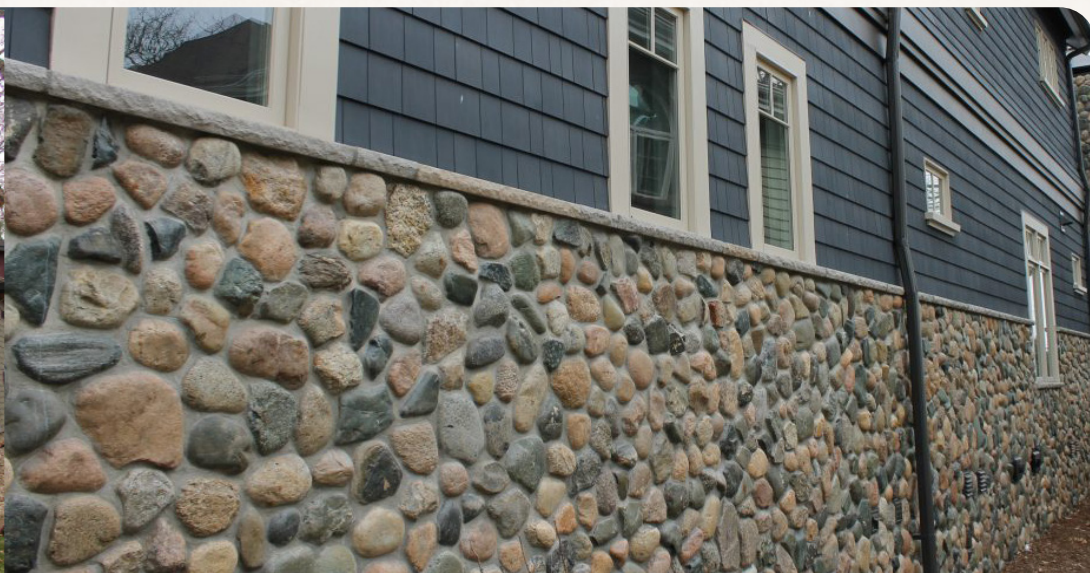

# Cobble Veneers

RealStone Glacial Till Cobble Veneers are timeless and unique because their shapes were formed exclusively by the elements of nature. These stones are available in three different size ranges and offered in thin, full face, and full depth veneer. They are best used for but not limited to exterior siding, wainscoting, chimneys, fireplaces, outdoor kitchens, and come in a variety of natural earth tone colors.

**Product Specifications:**

**Thin Cobblestone Veneer**

Thickness - 1½ – 2½"

Diameter - 6 – 10"

**Oversized Cobblestone Veneer**

Thickness - 2 – 3½"

Diameter - 10 – 16"

**Jumbo Cobblestone Veneer**

Thickness - 3 – 5"+

Diameter - 16"+

**Full Depth Cobblestone Veneer**

Thickness - 3 – 5"

Diameter - 6 – 18"

# Split Face Veneers

RealStone Split Face Veneers are created by splitting our Glacial Till Granite which exposes its beautiful core. These stones are available in three different size ranges, round/irregular shapes, squares/rectangles, and in both thin/full depth veneer. They present a wide range of building applications such as exterior siding, wainscoting, pillars, landscape walls, fireplaces, chimneys, and more.
